

Island Stone™
natural advantage

rustic

Rustic Cladding is an extension of Island Stone Strip Cladding - it uses a narrower tile with a varying relief pattern to create a stunning feature wall effect. Once in place, it literally looks like the stone has been woven across your wall. Rustic Cladding is made of solid stone with all the natural variations in surface texture and colour that this brings.

Its uneven surface, combined with the subtle colour variations, make it an ideal product to use as part of any wall or surface that you want to receive extra special attention.

Rustic Cladding can be laid either horizontally or vertically, all with easy grout-free installation.
