king pebble

King Pebble is one of Island Stone's flagship tiles. Based on the original Perfect Pebble tile, it uses a much larger (up to 70mm) and more random shaped pebble to create a rugged, chunky look.

With its indoor/outdoor versatility, and large colour palette, the numerous applications for the King Pebble include entranceways and atriums, larger interior rooms and open-plan spaces, feature walls, courtyard and patio areas, pools and more.

A unique look can also be achieved by contrasting the King Pebble tile with other Island Stone products.
